INTENSIVE TUTORING

Intensive Tutoring supports students who are unable to secure a place in an international school, or who are struggling to catch up with the school's curriculum. It prepares students for exams, helping them to strengthen their concepts and enhancing their confidence.

A customised Individualised Education Plan (IEP) is designed with achievable educational goals to support the student's educational targets. With flexible timings and frequency of teaching, we can accommodate the students' learning needs. Lessons can be delivered online or onsite.

CURRICULUM-BASED REMEDIATION

This programme provides a direct and strong link between the weekly curriculum demands and remediation, keeping in mind the student's learning differences. It focuses on the student's strengths as we explore and cover the school's syllabus and curriculum. Preparing students for exams is also a feature of curriculum-based remediation.

With the Curriculum-Based Remediation, we aim to help them in exam preparation by providing direct support to the student's weekly homework demands.

ONLINE SPECIALIST TUTORING

Specialist Tutoring sessions are delivered online bringing intervention into the home. Specialist support to students is available wherever internet services are available. Online lessons are flexible and customised to suit the learner's needs.
